

DeLaval OptiDuo™

Robotic Feed Refresher

**IT ALL REVOLVES
AROUND YOU**

 **DeLaval**

Don't just push feed **REMIX IT**

“ I find the OptiDuo mixing function useful. Because we only feed once, it's good to have the feed remixed from time to time. The feed is more homogeneous and that's particularly good for my young animals ... Now the feed is mixed better and consumption of straw is much higher because they can't be as selective. ”

Herbert Bauer
Bavaria, Germany

DeLaval OptiDuo™

robotic feed refresher

does twice the work to improve your productivity. First, by remixing feed to make it more appealing to cows and then by moving feed back to the bunk, the designed result being higher consumption and more milk.

DON'T JUST PUSH FEED

Reposition and refresh feed. Entice your cows to visit the feedbunk more often with the promise of fresher feed creating the potential for better cow traffic, less competition and stress at the feedbunk, and higher consumption rates – adding up to more milk.

Increase work efficiency. OptiDuo runs around the clock, ensuring your cows always have access to appetizing feed and you have more time for other tasks.

Adapt to feed changes. With its unique Adaptive Drive system, OptiDuo is the first feeding solution able to adapt to different amounts of feed and types, like TMR, hay, straw and grass. It selects its line and speed so whatever is on the feeding table, OptiDuo will get the job done.

Operate safely. The OptiDuo smart navigation system makes sure it's where it's supposed to be, and safety bumpers on all sides automatically stop the unit if it senses a person, object or animal.

If your cows are eating well, your farm is working well. Your cows will be healthier, calmer, more fertile and more productive. Put a DeLaval OptiDuo feed system to work for you.

BEST-IN-CLASS FEED SYSTEM

- ✓ Fresh Feed at All Times
- ✓ Indoor/Outdoor Charging Station
- ✓ Twin-Spiraled Rotating Auger
- ✓ Optional Concentrate Dispenser
- ✓ Smart Navigation System
- ✓ Cleans Feed Bunk
- ✓ Flexible Installation
- ✓ Service-Friendly
